

## Apprenticeship: Warehouse Specialist (m/f/d/a) or Warehouse Logistics Specialist (m/f/d/a)

During your training, you will work in the warehouse and logistics center. You will learn the processes involved in receiving and shipping goods and will be responsible for order picking – that is, properly storing and retrieving goods at exactly the right time.

Using a modern warehouse management system, you will monitor inventory levels, record goods, conduct inventory counts, and ensure that operations run smoothly. You will complete the classroom portion of your training in Altenburg.

The training program to become a Warehouse Specialist (m/f/d/a) lasts 2 years, and the program to become a Warehouse Logistics Specialist (m/f/d/a) lasts 3 years; both begin at the start of the school year in Thuringia.
