FROM IDEA TO INDUSTRY

EPSa
member of SERO EMS Group

Service technician (m/f/d/a)

Your responsibilities:

- Installation, assembly and commissioning of our equipment and systems at the customer's premises
- Carrying out maintenance, servicing and repair work
- Analysing and rectifying technical faults in installed systems
- Dismantling and modifying systems
- Providing instruction and training to our customers on the operation, maintenance and upkeep of the systems
- Planning, carrying out and documenting service calls and business trips
- Assisting with the procurement of tools and spare parts, and helping to set up and optimise the spare parts warehouse

We offer:

- A secure job in a successful medium-sized company
- Attractive remuneration with a share in the company's success
- 30 days' annual leave, up to 33 days depending on length of service
- A 38-hour working week and additional paid leave days in special circumstances
- Comprehensive and personalised induction by experienced colleagues
- Free workwear and safety clothing
- JobRad bike leasing scheme and the option to purchase the Deutschlandticket at a reduced rate as a Jobticket
- A discounted Deutschlandticket (Jobticket) via employer
- Modern break and lounge areas with kitchen facilities, as well as snack and drinks vending machines
- An appreciative company culture with short decision-making processes, summer parties and a Christmas party

Your profile:

- Completed technical vocational training in electrical engineering, electronics, mechatronics, industrial mechanics or a comparable qualification
- Alternatively, relevant professional experience in the technical service sector
- An independent, structured and meticulous approach to work
- A strong focus on customers and service
- Reliability, commitment and the ability to work as part of a team
- Willingness to travel on business and flexibility with working hours
- Category B driving licence
