

Supply Chain Manager (m/f/d/a)

Your responsibilities:

- You will share responsibility for procurement and material management, as well as for product-related post-calculation.
- You will optimize procurement and material costs while taking into account manufacturing process chains.
- You will participate in the continuous improvement of material management processes.
- You will manage schedules by determining and monitoring deadlines.
- You will research, categorize, and analyze the causes of inventory and develop proposals for implementing corrective measures.
- You will serve as the point of contact for customers regarding technical questions.
- You will work in a cross-functional team to ensure optimal delivery capability.

We offer:

- Permanent employment with a future-proof company
- Competitive compensation with profit-sharing
- 30 days of vacation (up to 33 days depending on length of service)
- Company pension plan
- Good work-life balance with a 38-hour workweek
- Flexible working hours (flex time) and paid leave in certain life situations
- Professional and personal development
- Training in negotiation techniques and purchasing strategies
- JobRad / Deutschlandticket
- Internal wellness programs / company and team events (summer parties, Christmas party)

Your profile:

- A bachelor's or master's degree in business administration, logistics, supply chain management, or a comparable qualification.
- Several years of professional experience are advantageous for performing these duties.
- Fundamental knowledge of ERP systems and MS Office
- Holistic thinking and a strong understanding of processes
- Analytical skills and a knack for numbers
- A structured, solution-oriented approach to work
- Strong communication skills and assertiveness
- Business-level German; English is an advantage
